

Missoula Anesthesiology, P.C.
PO Box 17527
Missoula, Montana 59808
Billing: (406) 728-8420

Dear Patient:

Missoula Anesthesiology, P.C. is pleased to provide services for your upcoming surgical procedure. We would like to make you aware that you will receive a separate bill for these services.

If you are uninsured or this is related to a motor vehicle accident or a legal suit, we require 100% payment in advance. Please contact our office at least 48 hours prior to your procedure to make this payment. We do accept all major credit cards. Please see below for instructions on receiving an estimate for your services in order to help expedite your pre-payment process.

We are contract providers for Medicare, Medicaid, Tricare, Blue Chip Children's Program, and Allegiance Benefit Plan. Please understand that if you are covered under any other plan than those listed above, we cannot randomly adjust your balance after your insurance company pays. Each insurance company determines what it will cover for a particular procedure individually. The amount that they choose to cover is based on numerous factors and wide geographical areas that may or may not vary from average retail rates. Our experience is that there can often be large discrepancies between what one insurance plan will cover versus another for an identical procedure.

We would suggest that regardless of your insurance coverage, you ensure that you fully understand your plan coverage before the services are performed, and obtain any pre-authorizations needed so that you are fully prepared for any balance that is your responsibility. As a courtesy, we will send a claim to your insurance plan if you have provided that information to the facility where your services are performed. Please be sure to verify with the registration desk that your billing information is correct and current. We do this as a courtesy, therefore, if payment is excessively delayed, it will be your responsibility to keep your account current.

If you are interested in receiving an estimate for your anesthesia services, please be sure to ask your surgeon's office for the CPT code and the length of the surgery before you call our office. Once you have that information, please dial 728-8420, ext. 140 and listen for instructions.

Missoula Anesthesiology, P.C. appreciates your understanding of our billing practices and looks forward to continuing to provide you and your family members with high quality anesthesia services. If you have questions regarding your account after billing, please call our office. For questions, call 728-8420 and select option 2 for our billing department.

Sincerely,

The Physicians and Staff of Missoula Anesthesiology, P.C.
